

## The Crystal Step: Sweet Sixteen Series, Book #1

Elizabeth was born and raised in London, Ontario, Canada. As a child growing up, Elizabeth had a true passion for writing. Whether it was a letter to one of her pen pals, a poem or short story, she would spend many hours writing. Her dream was to someday become an author, like some of her favourite writers. Aside from writing books, Elizabeth has a great love for animals. She has completed courses in animal sciences and forestry wildlife conservation and is a supporter of the Canadian Wildlife Federation, other forestry and wildlife foundations, Habitat for Humanity and other charitable organizations. The Crystal Step is a story that many teens of today can relate to. This book focuses on friction between two young girls, Crystal and Kelly, sworn enemies thrown together by the marriage of their parents, sentenced to spend the rest of their lives together as stepsisters and even share the same room. Crystal has a serious drug addiction and is a very rowdy teen while Kelly is a sensible soft-spoken girl whose worst problem before Crystal was where to spend her Saturday afternoons. However, since her mothers marriage to Crystals father Ken, life has never been the same.
