

## The Other Side (Dedalus European Classics)

The Other Side tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city created deep in Asia, which is also a journey to the depths of the subconscious, or as Kubin himself called it, a sort of Baedeker for those lands which are half known to us. Written in 1908, and more or less half way between Meyrink and Kafka, it was greeted with wild enthusiasm by the artists and writers of the Expressionist generation. Franz Marc called it a magnificent reckoning with the 19th century and Kandinsky said it was almost a vision of evil, while Lyonel Feininger wrote to Kubin. I live much in Pearl, you must have written it and drawn it for me. It will appeal to fans of Mervyn Peake and readers who like the darkly decadent, the fantastic and the grotesque in their reading. Expressionist illustrator Kubin wrote this fascinating curio, his only literary work in 1908. A town named Pearl, assembled and presided over by the aptly named Patera, is the setting for his hallucinatory vision of a society founded on instinct over reason. Culminating apocalyptically - plagues of insects, mountains of corpses and orgies in the street - it is worth reading for its dizzying surrealism alone. Though ostensibly a gothic macabre fantasy, it is tempting to read The Other Side as a satire on the reactionary, idealist utopianism evident in German thought in the early twentieth century, highly prescient in its gloom, given later developments. The language often suggests Nietzsche. The inevitable collapse of Pateras creation is lent added horror by hindsight. Kubins depiction of absurd bureaucracy is strongly reminiscent of Kafkas The Trial, and his flawed utopia, situated next to a settlement of supposed savages, brings to mind Huxleys Brave New World; it precedes both novels, and this superb new translation could demonstrate its influence on subsequent modern literature.
