

Vanilla Bright like Eminem

Michel Faber is not only a master storyteller but a daring innovator as well. Here are the pitch-perfect prose, indelible characterizations, and deep empathy for which he has been highly acclaimed. Here also is a satirical streak that depicts individuals at uncanny and all-too-familiar turning points in their lives. The alienated find sanctuary in *The Safehouse*, their histories and diagnoses written like endless ads on their T-shirts. In *Andy Comes Back*, a man awakens after a five-year coma, only to flee his home. In *The Eyes of the Soul*, perpetual televised beauty replaces the derelict view from a suburban picture window. In *Finesse*, a dictator holds his surgeons family hostage to the outcome of a risky operation. These sixteen stories move from unspeakable sadness through moments of exquisitely distilled happiness.
